

Biblioteca "Guillermo Haro" Instituto de Astronomía

BOLETÍN DE NUEVAS ADQUISICIONES

Les informamos que los libros en este segundo Boletín están disponibles en la biblioteca en formato impreso, sólo uno está disponible en formato electrónico, para tener acceso al texto completo deben dar click en la portada.

 <i>Contemporary</i> QUANTUM MECHANICS <i>in Practice</i> PROBLEMS AND SOLUTIONS Lilia M. Woods Pablo Rodríguez López	 Four Open Questions — FOR THE — N-Body Problem RICHARD MONTGOMERY	 Interpreting Quantum Mechanics Modern Foundations David W. Snoke	 Series in Astronomy and Astrophysics APPLICATIONS OF BIG DATA AND MACHINE LEARNING IN GALAXY FORMATION AND EVOLUTION TSUTOMU T. TAKEUCHI CRC Press
CONTEMPORARY QUANTUM MECHANICS IN PRACTICE	FOUR OPEN QUESTIONS FOR THE N-BODY PROBLEM	INTERPRETING QUANTUM MECHANICS: MODERN FOUNDATIONS	APPLICATIONS OF BIG DATA AND MACHINE LEARNING IN GALAXY FORMATION AND EVOLUTION
LIBRO IMPRESO	LIBRO IMPRESO	LIBRO IMPRESO	LIBRO IMPRESO
 Habitable Exoplanets for Extra-Terrestrials C.R. Kitchen	 Python Experiments in Physics and Astronomy Padraig Houlahan CRC Press	 ROCCO SCHIAVILLA QUANTUM MECHANICS THROUGH PROBLEMS With Complete Solutions	 Inside the Star Factory The Creation of the James Webb Space Telescope, NASA's Largest and Most Powerful Space Observatory NASA Photographer Chris Gunn, with Christopher Wanjek
HABITABLE EXOPLANETS FOR EXTRA-TERRESTRIAL	PYTHON EXPERIMENTS IN PHYSICS AND ASTRONOMY	QUANTUM MECHANICS THROUGH PROBLEMS: WITH COMPLETE SOLUTIONS	INSIDE THE STAR FACTORY: THE CREATION OF THE JAMES WEBB SPACE TELESCOPE
LIBRO IMPRESO	LIBRO IMPRESO	LIBRO IMPRESO	LIBRO IMPRESO

 CELESTIAL AND STELLAR DYNAMICS Barbara Ryden	 POSITION AND MOTION OF CELESTIAL BODIES	 STRONG GRAVITATIONAL LENSING IN THE ERA OF BOG DATA	 EARLY DISK GALAXY FORMATION FROM JWST TO THE MILK WAY
LIBRO IMPRESO	LIBRO ELECTRÓNICO	LIBRO IMPRESO	LIBRO IMPRESO
